CHAPTER 1

Usage

Using StaticMaps Signature is pretty straight forward:

```
from staticmaps_signature import StaticMapURLSigner
staticmap_url_signer = StaticMapURLSigner(
    public_key=YOUR_API_KEY, private_key=YOUR_SECRET)

signed = staticmap_url_signer.sign_url(URL_TO_SIGN)
```

CHAPTER 2

Indices and tables

- `genindex`
- `modindex`
- `search`
